cients, on as favorable terms as they could do
themselves if present.

From my extensive acquaintance with the different parts of the Territory, its soil and mineral resources, added to my long residence in Kansas and on the western border of Missouri, flatter myself that I can give general satisfaction to
all who may entrust business in my hands.

Collections made in any part of the Territory
or in Western Missouri. I will continue to practice law in the various courts of the Territory,
and attend to contested claims in the Land Office.

intermittent fever, colds, the use of quinnes and mercurial medicines, gatherings in the cars in childhood, etc., the sense can, in nearly every instance, be restored. Where a want of secretion is apparent, the "anditory canal," being dry and scaly; when the deafness is accompanied with noise in the ear, like rustling of leaves, chirping of insects, falling water, ruging of bells, discharge of matter; when in a stooping position, a sensasion is felt as if a rush of blood to the head had taken pince; when the hearing seems less acute in dult, cloudy weather, or when cold has been taken, the course pursued by Dr. LeBrun is considered in fallible.

Dr. Dufton is the only practitioner in the United States who practices the new gainless, and successful method in treating all the diseases to which the eye is subject. Where every other means have failed to afford relief, he asks from such a fair and impartial trial. Patients, by sensing a few particulars of their case, can have remedies sent to any part.

"We the undersigned, practitioner of medicine in the city of New York, having had occasion to witness the practice of Drs. Lebrun and Dufton, in diseases of the ear and eye, laying aside all professional jealousy and prejudice, freely admit that the course pursued by them in treating diseases of these delicate organs, from the superarded access which has attended it, is well worthy the attention of our professional brethren throughout the United States, Their system of treating diseases of the middle affects, and the different branches of our professional brethren throughout the United States, Their system of treating diseases of the middle affects, and fills up a void which has long been felt by the general practitioner, in diseases of the eye, they seldom require to resort to an operation. Shall We Vote or Not Vote! THIS IS A QUESTION OF GREAT IMPORtance. Mr own opinion is that we ought not
to vote; but this difference of opinion will be
no means prevent me from selling all the goods I
can to those who see fit to vote under the infernal apportionment act of the begus authorities,
hitherto repudiated by all our friends.
Supposing, however, that the voters will vastby outnumber the non-voters, I have made especial arrangements for their accosmodation, not
in the way of voting, but in the way of supplying them with GROCERIES and PROVISIONS
at the Leavenworth and Kansas prices.

The attention of the settlers on the Neosho,
Osage, &c., is particularly called to this arrangement.

On or about the 1st of October I shall take On or about the 1st of October I shall take possession of my new store, which is of solid stone, with briek front, thus affording an excelent opportunity for refuge in time of war; and is three stories high and sixty feet long. My object is to sell at wholesale at precisely the same as the Leavenworth wholesale stores, with the addition of freight from Leavenworth here.

This will enable the distant settlers to obtain their supplies, without being being absent from heme more than half as long as if they went to Leavenworth.

Full particulars when the Store is epened.
